

Walkthrough

Hotels booking

Hotels booking flow:

1 SEARCH BOX OPTIONS

The screenshot displays a hotel search interface. At the top, there is a tab labeled "Hotels" with a close button (X) and a plus sign (+). To the right, the word "demonstration" is visible next to a hamburger menu icon. The main search area is a light gray box containing the following elements:

- Residency:** A dropdown menu showing "United Kingdom (GB)".
- Currency:** A dropdown menu showing "US Dollar (USD)".
- Destination:** A text input field containing "Broadway - Times Square, New York, NY, United States" with a green checkmark icon on the right.
- Point of Interest (POI):** A text input field labeled "Enter point of interest(POI)" with a "15.0km" radius selector and a dropdown arrow.
- Check-in Date:** A date picker showing "10/11/2015" with a green calendar icon.
- Check-out Date:** A date picker showing "11/11/2015" with a green calendar icon.
- Number of Adults:** A dropdown menu showing "2 Adults" with a green arrow.
- Number of Children:** A dropdown menu showing "No children" with a green arrow.
- Room Management:** Two buttons: "+ Add another room" and "- Remove room".
- Advanced options:** A blue button with a downward arrow.
- Filters:** Two checkboxes: "Hide 'On Request' rooms" and "Disable auto filter by POI".
- Star Rating:** A section labeled "Select star rating" with a dropdown showing "1" and "To 5".
- Search Button:** A large orange button labeled "Search".

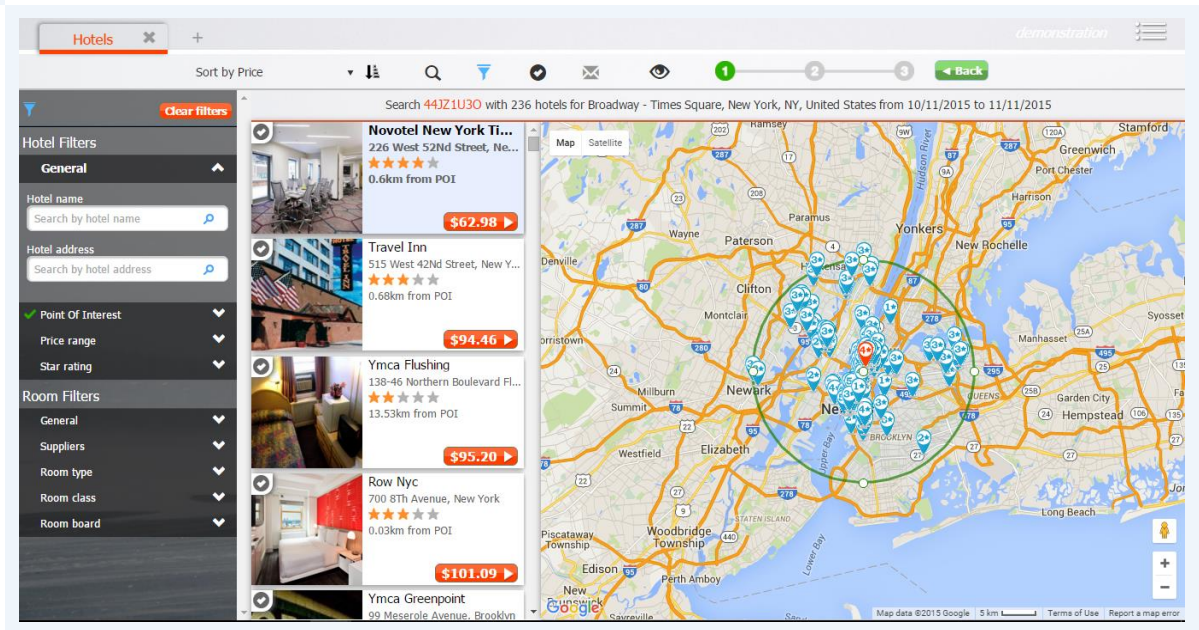

Search box input elements in terms of Destination or POI are controlled from Personalization screens. While it's possible to have both, we suggest using POI only, and Both as secondary option, and not using only destination field. When using a POI search important to keep in mind that the Radius passed together with POI will be applied to search results and you Can't extend it from search results screen. For example, 2km radius around London bridge can't be changed to view all of London, and you best results would come back with 20-25km range.

Additional options include pre-filtering our "on request rooms", or switching off POI display on map. Star rating range can also be applied.

The system supports search of up to 4 rooms and up to 4 passengers per room max. Infants and kids are considered passengers as well.

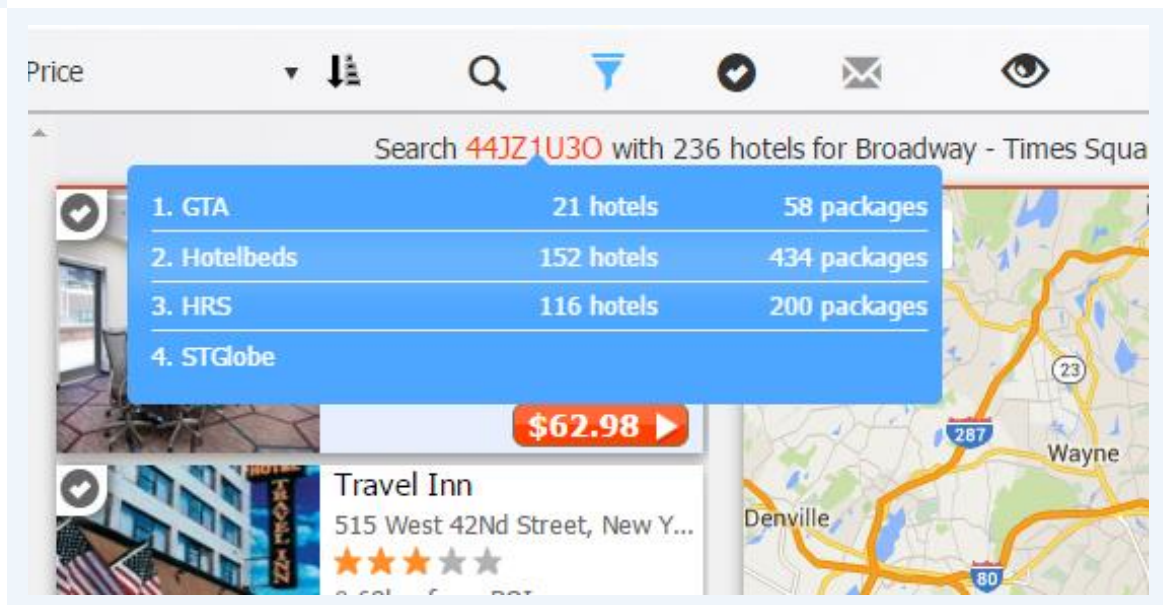

It is important to pass both correct Residency to avoid check-in problems or inapplicable rates being shown, as well as Kids ages - the rates and rooms depend on correct parameters being set.

2 SEARCH RESULTS - MAP VIEW

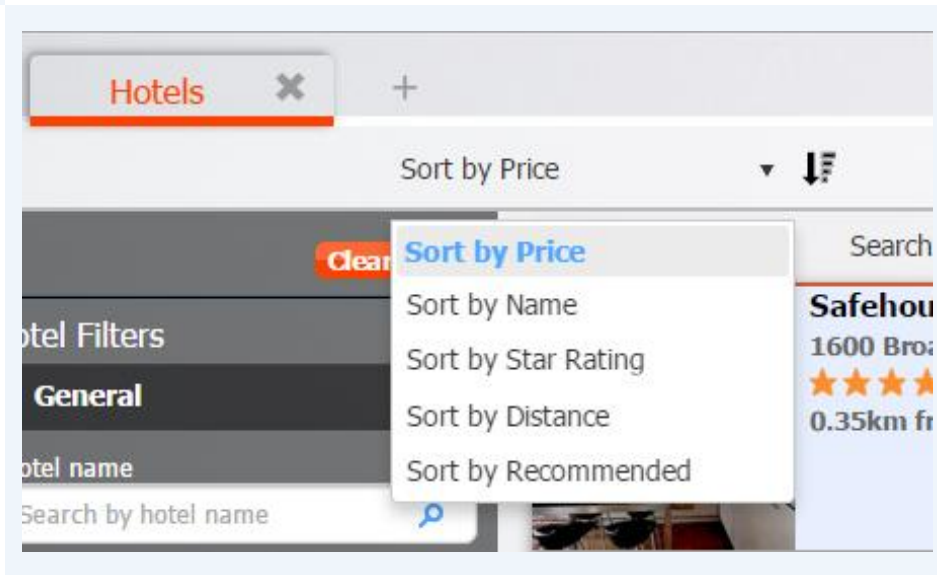

Search results page will give you a working Dashboard, where you can sort, filter, change views, compare, generate proposals, check availability and cancellation policies. Many of default settings, display preferences and other parameters can be preconfigured in Personalization section.

3 SUMMARY OF RETURNED SUPPLIER RESULTS

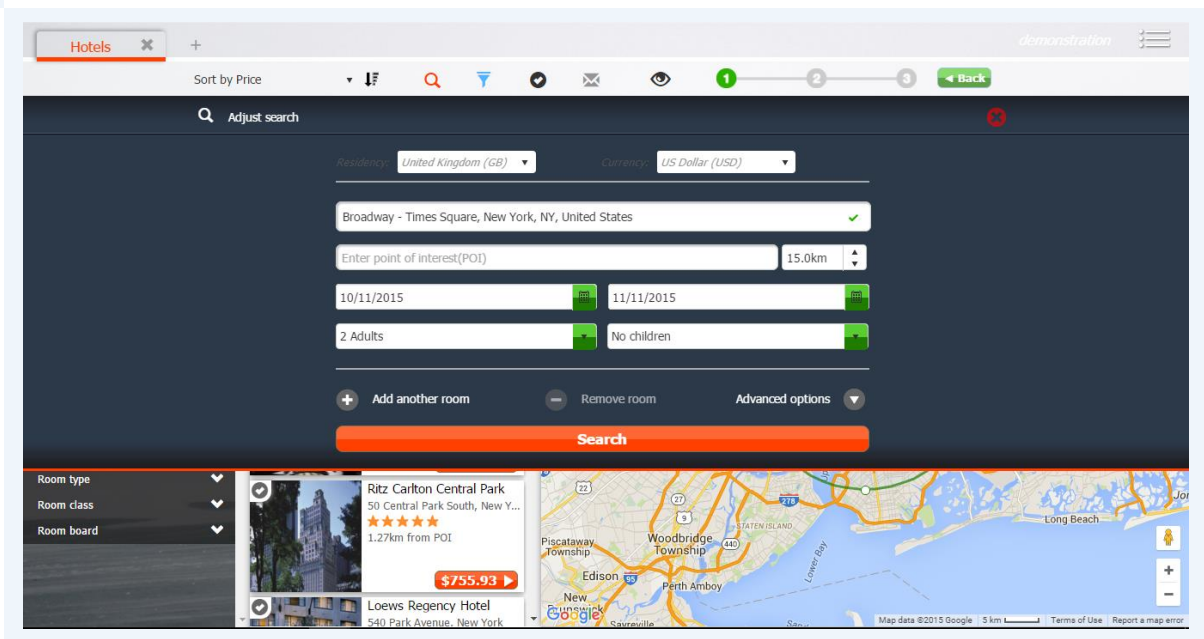

Hovering over the red digits next to "Search" summary will show you breakdown of returned suppliers, amount of hotels they've returned and amount of rooms returns.

4 MAKING NEW SEARCH

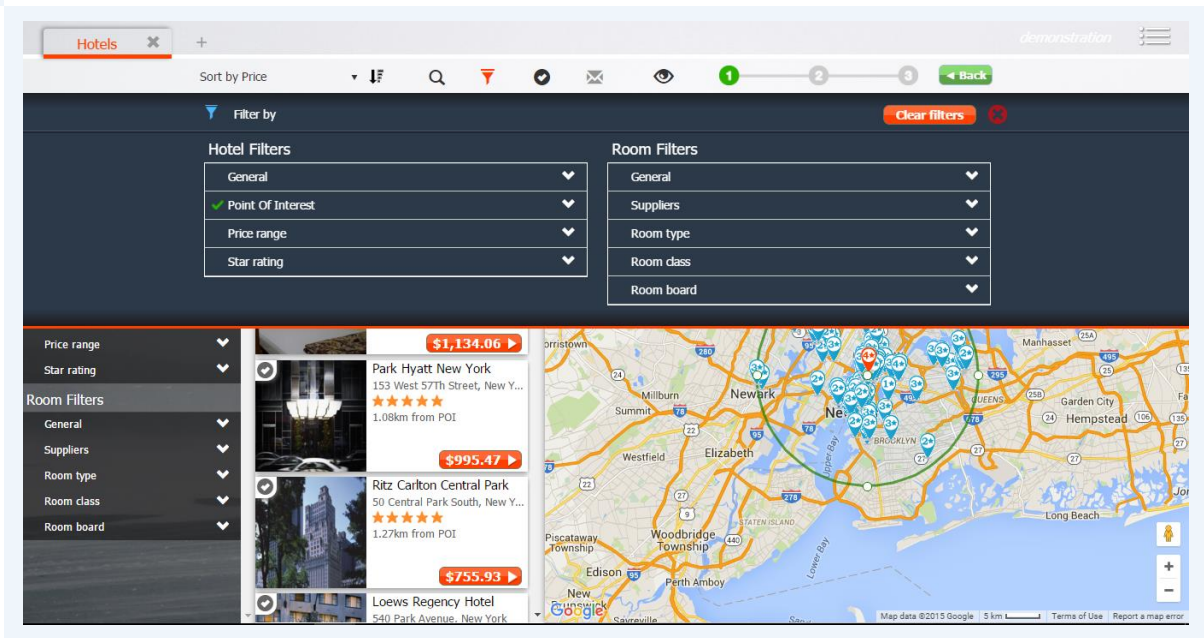

You can sort results by any of the above parameters. Sort by distance - will sort by City/POI center and hotel's distances from that point. Sort by recommended - will sort by promoted hotels and popular properties.

5

You can make a new search from same tab by clicking Search icon.

6 FILTER OPTIONS

The filters are available in the Upper section as well as a side bar on the left side. The reason for upper filters being present is the fact that vertical toolbar (filters) can be hidden using personalization settings.

The platform allows you to filter by basically any possible parameters returned from search results:

- **Hotel name** - Free text input, try to use general and NOT exact names. For example, if you input Hilton Doubletree or Doubletree Hilton - you WILL get 2 different results (or no results at all). Filter by typing Hilton OR Doubletree and combine with address filter if needed.
- **Hotel address** - Free text input, try to use general and NOT exact addresses. For example, if you need a hotel on 2457 Ocean dr. Miami Beach - try inputting just 2457
- **Point of interest** - If you didn't search from main page using POI you can use this filter to zoom in on specific area within the displayed results.

7 ADJUSTING POI ON MAP

The screenshot shows a hotel search interface with the following details:

- Search:** 443Z1U30 with 135 hotels for Broadway - Times Square, New York, NY, United States from 10/11/2015 to 11/11/2015
- Hotel Filters:**
 - General:** Hotel name, Hotel address
 - Point Of Interest:** Point Of Interest (Broadway - Times Square, New York, N), Distance from location (3.77km)
 - Price range:**
 - Star rating:**
 - Room Filters:** General, Suppliers, Room type, Room class
- Hotel List:**
 - Safehouse Suites Ma...** 1600 Broadway, New York, 0.35km from POI, \$4,985.00
 - Park Hyatt New York** 153 West 57th Street, New Y..., 1.08km from POI, \$995.47
 - Ritz Carlton Central Park** 50 Central Park South, New Y..., 1.27km from POI, \$755.93
 - Loews Regency Hotel** 540 Park Avenue, New York, 1.74km from POI, \$743.11
 - The Peninsula New York** 700 Fifth Avenue At 55Th Stre...
- Map:** A map of Manhattan showing a green circle representing the search radius around Times Square.

Dragging the bar on POI filter all the way to the right will change the distance value to ANY - removing POI map filter (the green circle).

8 RESULTS FILTERING OPTIONS

The screenshot shows a hotel search interface with the following details:

- Search:** 714W1JGK with 246 hotels for Broadway - Times Square, New York, NY, United States from 10/11/2015 to 11/11/2015
- Hotel Filters:**
 - General:** Hotel name, Hotel address
 - Point Of Interest:** Price range, Star rating
 - Room Filters:** General, Suppliers, Room type, Room class, Room board
- Hotel List:**
 - Novotel New York Ti...** 226 West 52nd Street, Ne..., 0.6km from POI, \$62.99
 - Travel Inn** 515 West 42nd Street, New Y..., 0.68km from POI, \$94.49
 - Ymca Flushing** 138-46 Northern Boulevard Fl..., 13.53km from POI, \$98.52
 - Row NYC** 700 8th Avenue, New York, 0.03km from POI, \$101.12
 - Ymca Greenpoint** 99 Meserole Avenue, Brooklyn
- Map:** A map of Manhattan showing a green circle representing the search radius around Times Square.

Price range, Star rating, TripAdvisor rating (when available to you) are pretty straightforward fields.

In general section of Room filters you can:

- Filter out the On request hotels (if such are allowed to returned to the user by configuring it in User settings).
- Filter to display Refundable rooms only (it will hide all other rooms with Nonrefundable and Unknown refund ability statuses).

Suppliers filter allows to show specific suppliers. This option behaves differently, as not all users have access/rights to view supplier names.

9 FILTERING ROOM TYPES

The screenshot displays a hotel booking interface. On the left, a 'Room Filters' sidebar is visible with the 'Room type' filter selected. Under 'Room type', the 'King' option is checked and highlighted with a red circle. The main search results area shows a list of hotels with their respective room types and prices. The 'St Giles Hotel The Court' is highlighted, showing a 'King' room for \$280.05. Below the list, a table provides detailed information about the selected room, including room type, class, inventory, rate, payment, and taxes. The table also includes a 'Book' button for each room type.

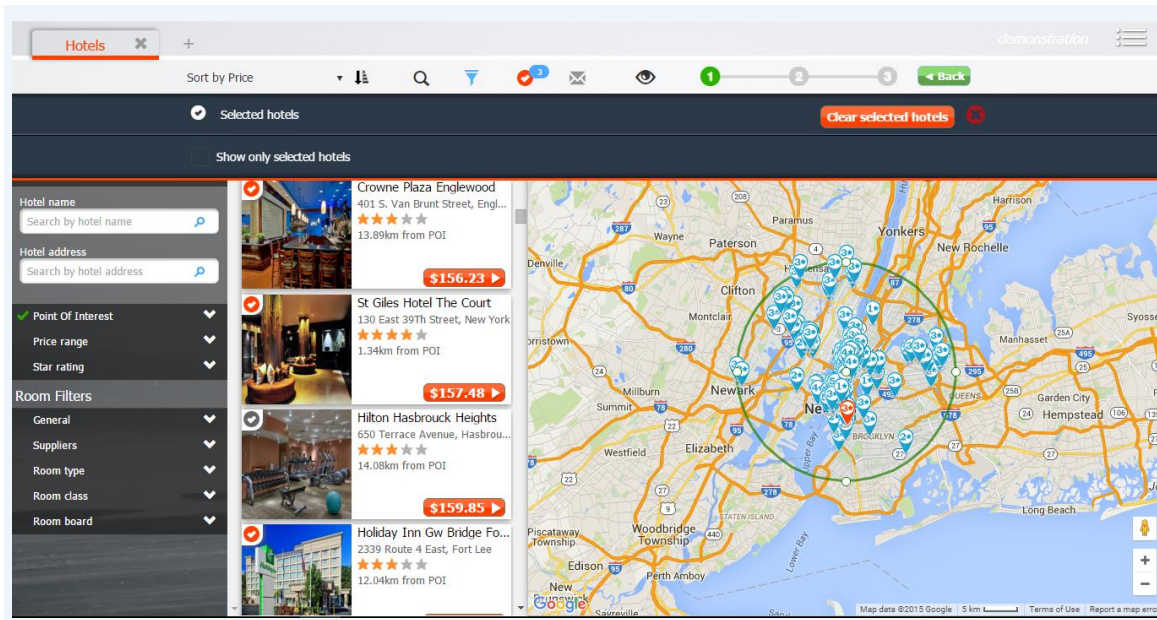

Type	Class	Inv. type	Rate Type	Payment	CKL Info	Avg. price/night	Comm. %	Comm. Est.	Total ▲
King	Standard	HBS		Pre-pay	OK	\$280.05 Tax Incl.		Net rate	\$280.05 Tax Incl.
King	Standard	HBS		Pre-pay	OK	\$307.79 Tax Incl.		Net rate	\$307.79 Tax Incl.

Amenities

- ✓ Air conditioning
- ✓ Bar/Lounge
- ✓ Bathrobe
- ✓ Business Center
- ✓ Climate control
- ✓ Cribs Available

Room type, room class and room board filters allow you to drill down to desired rooms. For example, you can easily filter out King, Deluxe with view, Bed and breakfast rooms at 5* hotels or Suites etc.

10 SHOWING SELECTED HOTELS ONLY

By checking the “V” icon you can “select” hotels and easily review them by clicking on V icon in the upper menu, then selecting “Show only selected hotels”. Number next to the Icon shows how many hotels you have selected. To clear the selection use either “Clear filters” button found in the upper section of each filter toolbar or “Clear selected hotels”.

After clicking book, you will get to Booking page (checkout). You can notice in the right side the reservation pricing summary, that can include details about Taxes, Commissions, Averages, Refundability etc. The data changes depending on the user settings, selected provider and inventory type.

In addition, you can modify the markup by amount or % or total fields. Based on changes made, other fields update automatically.

In some cases, fields like Service fee are available. Service fee, unlike markup, is considered “Agencies” profit and is processed as a separate credit card transaction (unlike Markups processed as one transactions with the room reservation).

Internal references are custom fields to add usually billing / accounting related information.

Customer details - Only First and last name are MANDATORY, however filling other information can be useful for proper reservation management and record tracking. If the email is not present - the consumer won’t receive an email notification/voucher.
